clinical chemistry

If Spin Chem[®] Uric Acid Reagent is the Answer,

What's the Question?

Where do I find the *New* uric acid test that...

- has carefully designed applications for most instruments
- uses uricase for enzymatic specificity
- reads at 340nm
- uses NADP to decrease interferences
- is linear to 18 mg/dl
- is simple and rapid

If these are some of your questions, call or write SmithKline Instruments about Spin Chem Uric Acid Reagent. (800) 538-1564.

AMERICAN ASSOCIATION FOR CLINICAL CHEMISTRY

The purpose for which the Association is formed is to further the public interest by encouraging the study, advancing the science, and improving the practice of clinical chemistry. To achieve these objectives the Association shall:

1. Establish standards for education and training in the field of clinical chemistry.
2. Encourage the creation, promotion and maintenance of standards for certification of individuals in the field of clinical chemistry.
3. Encourage individuals in the field to pursue advanced studies and to engage in scientific investigations.
4. Promote scientific knowledge of clinical chemistry through meetings, seminars, discussions, reports and publications.
5. Initiate and participate in programs related to clinical chemistry that are in the interest of the public.
6. Promote programs for the recognition of the profession of clinical chemistry.
